SKILLS

Programming Languages: Java, Python, JavaScript

Frontend: HTML5, CSS3, JavaScript

Databases: MySQL, MongoDB

Core Subjects: OOPS, DBMS, Computer Networks

PROJECTS

Smart Attendance System using Computer Vision

Feb 2024 – Apr 2024

Python, OpenCV, Machine Learning

- Developed a **real-time face recognition attendance system** supporting multiple users simultaneously with high accuracy.
- Automated attendance logging into **Excel sheets with precise date and timestamp**, reducing manual effort and errors.
- Optimized face detection and recognition pipeline for consistent real-world performance.

Eye Health Reminder Application

May 2024 – Jun 2024

HTML, CSS, JavaScript

- Built a lightweight web application that **alerts users to take regular eye breaks** using configurable reminder intervals.
- Designed a simple and efficient UI to improve usability and reduce eye strain.

INTERNSHIP

Full Stack Java Intern – TAP Academy

Jan 2026 – Present

- Developing **Java-based REST APIs** and implementing backend business logic following clean coding standards.
- Working with databases, API testing, and debugging to improve application performance.

Full Stack Java Intern – Skill Dzure

May 2025 – Jul 2025

- Built and tested **RESTful APIs** for web applications with proper request validation.
- Improved API efficiency through performance tuning and structured debugging.

ACHIEVEMENTS

- **Secured 1st Place in Paper Presentation** at RGM College, Nandyala (2024), highlighting strong technical and presentation skills.
- Successfully completed **Edunet Tech Saksham IR4.0**, gaining exposure to industry-relevant technologies.

EDUCATION

Royalaseema University

2022 – 2026

B.Tech in Computer Science and Engineering, CGPA: 8.0

India

Abhyas Junior College

2020 – 2022

Intermediate (MPC), CGPA: 9.25

India
